WARNING: Cancer and reproductive harm - www.P50Warnings.org/v

WARNING: Accidental overdose of iron-containing products is a leading cause of poisoning in children under 6. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

US FDA AND ADMINISTRATION:
Use of this drug is intended for oral daily, or as directed by a physician, or health-care provider. Ferrex™ 28 contains a 28-day course of iron supplements that consists of 21 maroon active tablets and 7 blue absorption period tablets. Take 1 maroon tablet daily for 21 days, followed by 1 blue tablet daily for 7 days.
See package insert for complete administration and/or prescribing information.

HOW SUPPLIED:
Ferrex™ 28 Tablets are available in a blister dispenser containing 28 oval-shaped tablets (21 maroon tablets and 7 blue tablets). The maroon film-coated tablets are debossed "B-588". The 7 blue film-coated tablets are debossed "B-587". Supplied in packages of 28 tablets each containing 4 child-resistant blisters of 7 tablets. 51991-588-28.

Store at 25°C (77°F); excursions permitted to 5°-30°C (59°-86°F). See USP Controlled Room Temperature.
Dispense in a light, light-resistant container with a child-resistant closure as defined in the USP/NF.

Warnings: Keep this and all medications out of the reach of children.
To report serious adverse event contact: 1-800-361-3688.
